MOHIUDDIN AHMED

Frontend Developer

Dhaka, Bangladesh | +8801881649533 | mohiuddinahmed121@gmail.com | Portfolio | GitHub | LinkedIn

OBJECTIVE

Computer Science and Engineering student with hands-on experience in frontend and full-stack web development. Seeking an entry-level software or frontend development opportunity to apply modern web technologies, build reliable applications, and strengthen problem-solving skills.

TECHNICAL SKILLS

Frontend: Next.js, React.js, TypeScript, JavaScript, TailwindCSS, TanStack Query
Backend & Database: Node.js, Express.js, Prisma, PostgreSQL, MongoDB
Authentication & Payment: JWT, Role-Based Access Control, Stripe, Webhooks
Programming Languages: Python, C++, Java
Tools: Git, GitHub, Vercel, Netlify
Other: Machine Learning (basic)

PROJECTS

Alphabet Clash Pro
GitHub: View repository
Live preview: Play game

- Developed an interactive browser-based word game to improve typing speed and reflex accuracy.
- Implemented real-time input handling, scoring logic, and dynamic gameplay mechanics.
- Optimized user experience with responsive design and smooth UI interactions.

Technologies Used: JavaScript, HTML, CSS

FixItNow – Home Service Marketplace
GitHub: View repository
Live preview: Frontend | Backend API

- Developed a full-stack home service marketplace connecting customers with technicians through role-based workflows.
- Implemented JWT authentication and role-based access control for Customer, Technician, and Admin users.
- Built service browsing, booking management, technician status updates, and customer review functionality.
- Integrated Stripe Checkout and webhook handling for secure online payments and booking payment updates.
- Developed RESTful APIs with server-side validation, structured error handling, Prisma ORM, and PostgreSQL.

Technologies Used: Next.js, React.js, TypeScript, TanStack Query, TailwindCSS, Node.js, Express.js, Prisma, PostgreSQL, JWT, Stripe

Book Review System
GitHub: View repository
Live preview: View website

- Built a full-stack web application for browsing books and submitting user reviews.
- Implemented CRUD functionality for books and reviews with structured backend APIs.
- Designed a clean and responsive interface to enhance user engagement and usability.

Technologies Used: Node.js, Express.js, MongoDB, JavaScript

EDUCATION

University of Asia Pacific *Dhaka, Bangladesh*
B.Sc. in Computer Science and Engineering **CGPA:** 3.68 / 4.00
Honors: 1x Vice Chancellor's Award, 3x Dean's Award for academic excellence.

LANGUAGES

Bangla: Native | **English:** Medium
